Libertade Malmö 15/7-17

Libertade

ARA Libertad (Q-2) is a steel hulled, full rigged, class "A" sailing ship that serves as a school vessel in the Argentine Navy. One of the largest and fastest tall ships in the world, holder of several speed records, she was designed and built in the 1950s by the Río Santiago Shipyard, Ensenada, Argentina. Her maiden voyage was in 1961, and she continues to be a training ship with yearly instruction trips for the graduating naval cadets as well as a traveling goodwill ambassador, having covered more than 800,000 nautical miles (1,500,000 km) across all seas, visited about 500 ports in more than 60 countries, and trained more than 11,000 navy graduates.

The ninth Argentine Navy vessel to bear the name Libertad, she has a total length (including bowsprit) of 103.75 m; a beam of 14.31 m; a draft of 6.60 m; and a displacement of 3,765 metric tonnes: these figures place ARA Libertad as the world's sixth longest tall ship and the third heaviest in displacement. Her complement is 357, including 24 officers, 187 crewmen and 150 naval cadets,

Libertade set the 124-hour run record for a sail school ship at 1,335 nautical miles, for which she was awarded the Boston Teapot Trophy. The captain was Commander Ricardo Guillermo Franke, and the Boston Teapot was presented by Prince Philip, Duke of Edinburgh in name of Queen Elizabeth II. Libertad has won the Boston Teapot Trophy nine times in total: in 1966, 1976, 1981, 1985, 1987, 1992, 1998, 2000, and 2007.

In 2004 she underwent a general mid-life update with special effort put into security and comfort, seeking to extend the vessel's lifespan for at least another forty years.[5] The extensive works were finished in April 2007 and included:

- New integral painting
- Replacement of all Burma teak linings
- Modernization of steering gear
